

ROUTE 2 CORRIDOR

The western Route 2 corridor also serves industrial, commercial and service functions for the City. It is an essential gateway into the City from points west. The corridor contains the main stem of the Hoosic River.

1. Strengthen and Connect Existing Anchors

- 1A Chenail Farm & Agriculture Services
- 1B Stop & Shop Complex
- 1C N. Adams Regional Airport
- 1D Holy Family
- 1E Greylock School
- 1F Alcombright Athletic Complex
- 1G Greylock Apartments
- 1H Price Chopper Complex
- 1J Excelsior Mill
- 1J Braytonville School & YMCA
- 1K Hillside Cemetery

2. Support Pending/Planned Projects

-  Bike/Shared Use Path
(exact location not yet determined)

3. Coordinate and Facilitate Potential Reinvestment Areas

- 3A Support compatible infill
- 3B Carriddi mill redevelopment
- 3C Enhance Appalachian Trail access
- 3A Reuse of Former Fairgrounds Site

 **Route 2 Corridor Boundary**

Please add your comments about this area and the anchors, current projects and reinvestment areas identified.

You'll have more of a chance to comment during a group exercise later in the workshop.

Workshop comments received:

Route 2 Corridor

- . City-owned woodlands should be well maintained for forestry and recreation, and should not be sold off.
- . (Carry forward to the Conservation and Recreation Chapter.)
- . The former fairgrounds site would make a good dog park and has connection potential to MASS MoCA.
- . Hillside Cemetery needs headstone restoration and site enhancements.
